

HOOSIER HOUSING HELP

Indiana's key resource for landlords and tenants

The state of Indiana wants to help tenants stay in their homes and help property owners run their rental businesses.

Hoosier Housing Help connects tenants and landlords statewide with ***vital resources for housing stability.***

This single source for relief and recovery information opens doors to pre-eviction diversion programs and federal funds for rental assistance.

FOR LANDLORDS

Help for Landlords and Property Managers

Landlords can avoid the expense and hassle of filing eviction cases by participating in settlement programs and applying for rental assistance (even on behalf of their tenants).

Help is available whether or not you have an eviction case already filed. It is free and a neutral facilitator can negotiate a settlement.

Apply for rent relief funds on behalf of tenants

More than \$400 million in rental assistance has been authorized by the federal government for the state of Indiana.

Get help talking with your tenants

Free settlement conferences with landlords, tenants and a neutral facilitator allow all parties to discuss the situation and explore solutions.
